EFFICIENT

Smooth and reliable logistics line comes from the advanced frequency conversion asynchronous traction machine.

Traction Technology

Stable and Reliable Performance

Traction lift dedicated host optimizes the traditional design, greatly improve the stability of the motor and reduce the noise pollution.

Simple Structure, Easy Maintenance

Use a mature technology of asynchronous motor, stable and reliable mechanical components, simple structure, loss reduction and easy maintenance, using costs go down correspondingly.

Powerful Carrying, Create Value

Traction elevator dedicated host has different levels of load carrying capacity; it's convenient to use for users, maximum carry is upto 20 person. For users' efficient transport, bring attractive profit.

AUTO DOOR

Passenger Elevator

The stylish way to Brand your Elevator

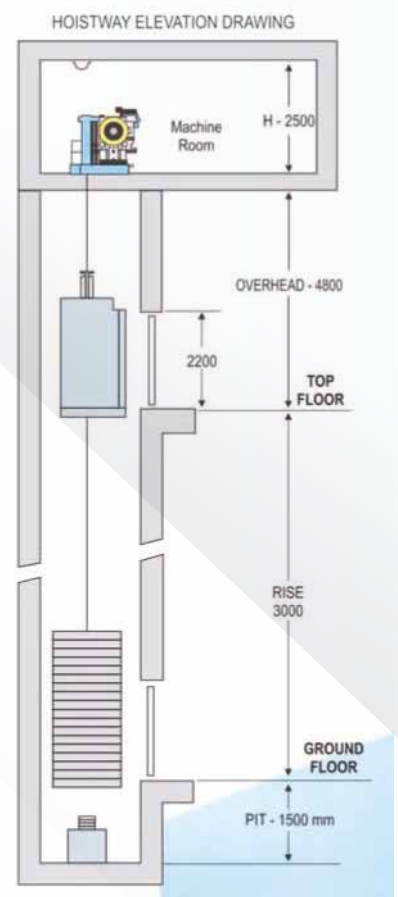

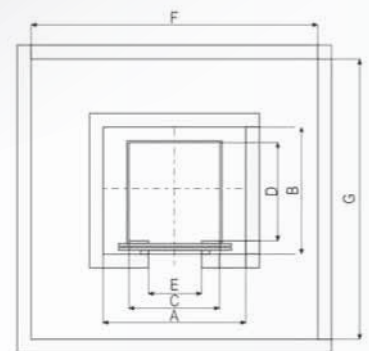

Capacity
06 To 20 Passenger

ATLUS LIFT has been engineered with full automatic doors. Fabricated with most advanced lift controls, appreciated for their high speed, smooth travel and perfect leveling different types of doors Centre Opening, Telescopic Opening.

- In high density requirements, we can provide grouping of multiple elevators to reduce the waiting time of the passengers.
- Our proficiency allows us to design and develop Passenger Elevators of various sizes and capabilities.
- It gives benefits of jerk less travelling, economically low power consumption and excellent design.

MRL ELEVATOR

Machine Roomless Elevator

Step up Revolution

Capacity

05 To 26 Passenger

Low Noise

High Efficiency & Energy Saving

Green Environmental Protection

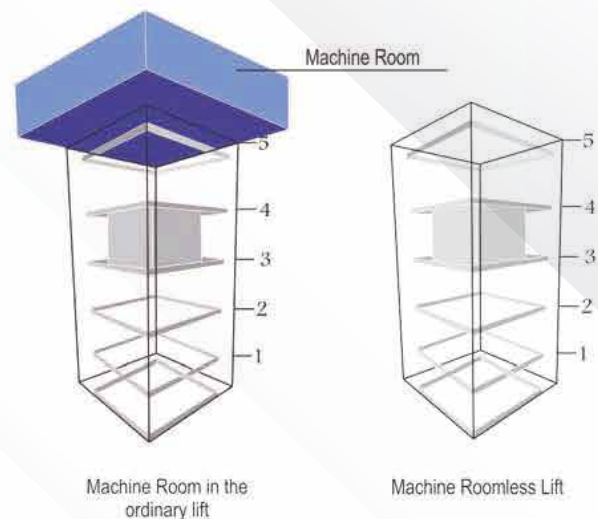

The Machine roomless elevators incorporate environment concern by using energy saving machines and low noise controller. It also saves construction space which totally reflects the idea of environment friendly culture.

Compared with gear load elevators (having same load capacity), these elevators save about 25% energy and 10% construction area.

Roomless passenger elevators have overcome conventional prerequisites of machine rooms by providing limitless possibilities in creation of elevators which confront with optimal space utilization.

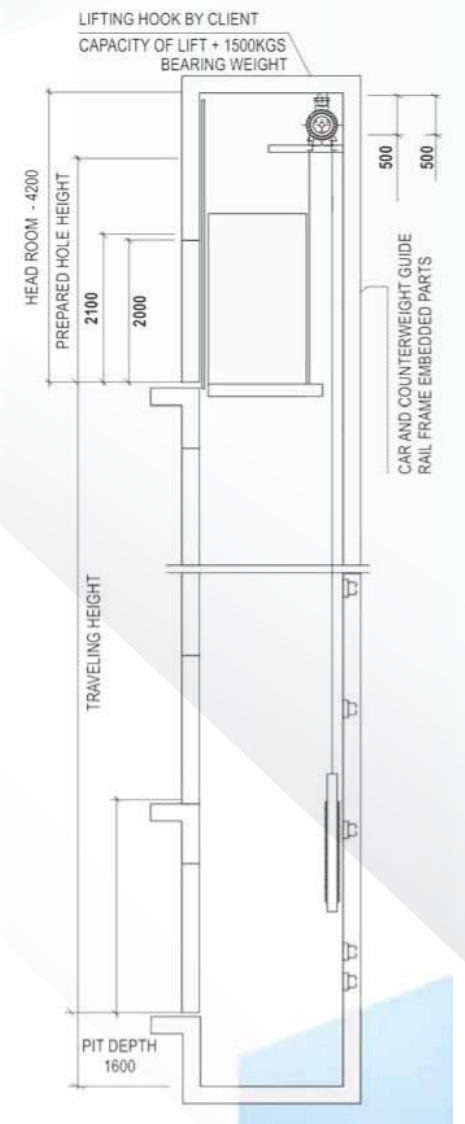

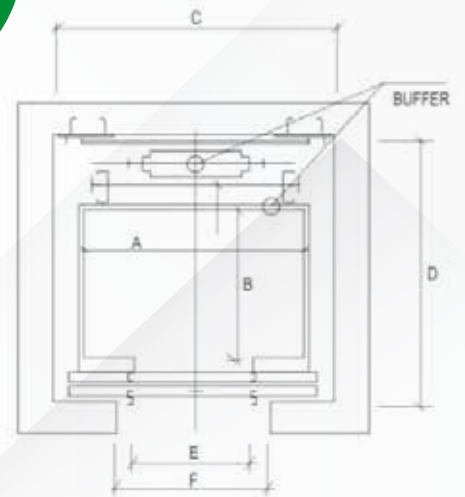

It saves **25%** of total elevator equipment area.

It reduces **40%** of space occupation.

HOME ELEVATOR

Residential Elevator

The stylish way to Brand your Elevator

Capacity
Up To 04 Passenger

Home lift not only increase the value of your home, but can also provide you a stunning showpiece. At the same time, home lifts can allow the disabled and elderly to easily move about a multi-level dwelling.

The term "home lift" commonly refers to a lift enclosed in a shaft, and which can travel vertically as much as 15 m. (SOft.). Home elevators make it easier to carry groceries, laundry or anything else from one floor to another. And today, they're fully customizable - choose from a wide range of materials, such as marble walls or stained glass, to turn your home elevator into an expression of your own unique style!
